DIVIDEND :

The Board of Directors at their meeting held on 24th February, 2020 declared an Interim Dividend of ₹ 0.20/- per equity Shares of the face value of ₹ 1/- each aggregating to ₹ 1,89,90,000/- plus applicable taxes thereon based on the profitability during the current year 2019-20. In view of the current situation arising out of Novel Corona Virus, the Board proposed that Dividend during the year, as above, be declared as a Final Dividend for the year 2019-20.

OPERATIONS :

The Directors have immense pleasure in reporting that during the year the Company has achieved record output at 68548 MTs of paper which is higher by about 8% over last year. The output would have been further higher by about 2000 MTs but for the Corona Virus induced 'shutdown' since 22nd March 2020. Consequently, the Company

also achieved higher revenue at ₹ 604.48 crores as against ₹ 589.52 crores last year. As a result, the EBIDTA has also registered significant growth at ₹ 60.92 crores as against ₹ 40.83 crores last year, a rise of over 49%, which also includes gains made from higher productivity, judicious fibre management, cost reduction and lower pulp prices. The Profit Before Tax at ₹ 41.05 crores was also higher by about 60% over last year.

The Coater Project was installed and commissioned during the year. This project aimed to take the Company into “functionally coated” paper business for food baking/packaging applications, is gradually improving its capacity utilization.

The performance of Hygiene Products Division has, during the year, been steady and remained unaffected by the slowdown in the economy.

The sudden entry of Corona Virus into India has taken entire nation by surprise. The consequent nationwide ‘Lockdown’ has, severely disrupted economic activity in the short term and created uncertainty for the Medium Term. The production at its factory at Thergaon, Pune, remained suspended for 51 days during the first half of calendar year 2020, whereafter the production resumed in accordance with the conditions stipulated by the Government of Maharashtra while granting permission to it since 12th May, 2020. The production, whilst waiting for the demand to pickup is gradually increasing after the resumption and currently runs at about 50% capacity utilization. The Hygiene Products Division, which mainly focusses on institutional business is also witnessing similar trend which is currently operating at about 30% of normal level and is expected to gradually move upwards as demand picks up as more and more institutions reopen their establishments.

In view of prevailing uncertainty about growth in economy, the plans for relocation of Pune facility to Mahad and expansion thereof continues to be in abeyance. Consequently the Leave and Licence Agreement in terms of which the Company’s facility is located at Pune for the land and buildings owned by AMJ Land Holdings Ltd. (Formerly known as Pudumjee Pulp & Paper Mills Ltd.) proposed to be renewed for a further period of 5 years with effect from 1st February, 2021 on the terms and conditions which may be mutually acceptable to the said owner of the land and buildings. Accordingly a resolution is proposed at the ensuing Annual General Meeting, which the Directors commend for your approval.

FIXED DEPOSITS :

As informed to you earlier, pursuant to the Scheme of Arrangement and Reconstruction (Demerger) as sanctioned by the Hon’ble Bombay High Court, the “Fixed Deposits Liability” was transferred from Pudumjee Pulp & Paper Mills Limited to the Company. Your Company holds fixed deposits accepted from Public with effect from the effective date of the scheme i.e. 1st February, 2016.

With effect from 05th July, 2017 the Company has started to accept fresh/renewal of fixed deposits from the public and as on 31st March, 2020 stood at ₹ 2,818.55 Lakhs as against ₹ 2,863.27 Lakhs at the end of the previous year (i.e. Fixed Deposit Liability).

During the year, the Company has accepted/renewed such deposits aggregating to ₹ 6.75 Lakhs, and all the deposits falling due for repayment during the year were fully repaid on maturity except unclaimed deposits numbering 34 with an amount of ₹ 16.60 Lakhs as at the end of the year.

There were no over dues on account of principal or interest on public deposits other than the unclaimed deposits as at the year end and there have been no default in repayment of deposits or payment of interest there on. There are no deposits which are not in compliance with the requirements of Chapter V of the Act read with Companies (Acceptance of Deposits) Rules, 2014.

REPORT ON CORPORATE GOVERNANCE

The Directors present their Report on Corporate Governance as required by SEBI guidelines and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015:

Company's Philosophy on Code of Governance:

The Company's philosophy on Corporate Governance envisages transparency with integrity in all its dealings with its stakeholders including shareholders, employees, lenders and others, ensuring a high degree of regulatory compliance.

Code of Conduct:

The Company has adopted a Code of Conduct (the Code) for Directors and Senior Management of the Company in its meeting held on 14th November, 2015 in terms of the requirement of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as 'Listing Regulations'). The Code of Conduct is available at the Company's website www.pudumjee.com.

The Board members and Senior Management Personnel have affirmed their Compliance with the code. A declaration to this effect signed by the Executive Chairman of the Company is attached with the Annual Report.

BOARD PROCEDURE:

Board Meetings are held about four-five times a year. Detailed Agenda is sent to each Director well in advance of the meetings. The Directors are briefed at each Board Meeting regarding performance and working by the functional heads. In addition to matters statutorily requiring Board's approval, all major decisions of policy, strategic formulations, capital expenditure, new investments, major accounting policies are considered by the committees and/ Board.

MANAGEMENT DISCUSSION AND ANALYSIS:

Overview

The Company operates through two business divisions namely; 'Paper Division' and 'Hygiene Products Division'. The Paper Division manufactures Specialty Papers at its facility at Thergaon, Pune 411 033 and markets them throughout the country and exports some quantity to nearby countries and Europe. These Specialty Papers impart specific properties to address special requirement of customers for various applications in Packaging of Food products, Industrial application, household and personal hygiene, those requiring oil and grease resistance and others for meeting requirements in daily life. Such products, for instance, are:

1. Packaging paper for consumer Hygiene Products.
2. Laminating Base used with functional lamination for packaging of food grade products, pharma products, mouth fresheners, etc.
3. Glassine Paper, Oil & Grease resistance paper, Vegetable Parchment, etc. used for Packaging of food products, oily products, packaging of butter, cheese, etc.
4. Papers for Cake, Baking and similar applications.
5. Décor Papers for use in Decorative laminates for furniture, Base Paper for Melamine Tableware, etc.
6. Kraft Paper used as Release Liner for labels, etc. Kraft Interleaving for Steel and Glass Industry, Parchmentine for Textile Industry, etc.
7. Bleached interleaving kraft paper used in lamination for flexible packaging.
8. Cooling pad papers for applications in industrial and household coolers.
9. Fine Printing Papers for Bible Printing, Dictionary, Books, Pharma leaflets as insert & outserts.
10. Creped Tissue products for hygiene application viz. Napkins, Kitchen Towel, Toilet Rolls Paper for baby diapers, sanitary napkins etc.

The Hygiene Products Division undertakes conversion of Tissue products to value add a part of the production and markets them along with dispensers, sanitizers and other Hygiene products.

The Company does not have its own sources of raw material and is substantially dependent on imports of Market Pulp

and Waste Paper, the prices of which witnessed downward trend towards end of the year. The Market Pulp prices taking into consideration weakening of Rupee against Dollar have ranged from about ₹ 35,000 per MT to ₹ 58,000 per MT depending upon the trend in prices and variety of fibre sourced. The Company's financial performance to a larger extent depends upon the prices of such fibre as also net realizable value of products manufactured by the Company since the fibre raw material constitutes about half of the sales value.

Apart from achieving cost reduction, among others, through judicious mix of fibre, the Company's efforts continue towards -

- (i) Product mix optimization and rationalization with emphasis on growth potential and improved margins etc.
- (ii) Increase in share of higher contributing products.
- (iii) Cost optimization in respect of energy supply.
- (iv) Improved cost efficiency through investment in low cost project.

The Company's current manufacturing facilities are located at Thergaon, Pune on the land and buildings owned by AMJ Land Holdings Ltd (Formerly known as Pudumjee Pulp & Paper Mills Ltd.) and 3P Land Holdings Ltd. (Formerly known as Pudumjee Industries Ltd) taken by the Company on Leave and License basis the period of which agreement is expiring on 31st January 2021. The Company has also invested in the industrial site of about 75 acres at MIDC Mahad in Maharashtra where long term plan is to relocate the aforesaid facilities and to capture future growth opportunities. As specialty paper market is substantially different from the commodity paper market, the Company has been evaluating options in regard to manufacturing of new additional products when the facilities are relocated at Mahad which require high investment, though eligible for State Government's incentives corresponding to the capital expenditure. Besides, uncertainties arising out of Covid pandemic has also further contributed to the deferment of the project of relocation to Mahad. It is in this background that the Company proposes to renew the aforesaid Leave and License for a further period of 5 years on the mutually acceptable terms and conditions with the said owners of the land and buildings at Pune.

The Hygiene Products Division of the Company markets its 'Away-from-Home' converted tissue products such as Bathroom roll, Kitchen towel, Napkins, dispensers, sanitizer, disinfectants, hand wash soap and other hygiene products under brand name 'Greenlime', to Institutional buyers such as Business Hotels, Airports, Corporate Offices, Facility Managers as the main customers. The Company has launched products under new brand name 'Chef Smart' to focus on Professional Chefs so as to address the concerns of hygiene in the segment of Hotels, restaurants and caterings.

Company Performance

During the year under review, the Company has achieved turnover of ₹ 604.48 Crores (Previous year ₹ 589.52 Crores) resulting in EBITDA at ₹ 60.92 Crores (Previous year ₹ 40.83 Crores) and a Net Profit Before Tax of ₹ 41.05 crores (Previous year ₹ 25.62 Crores). This includes a turnover of ₹ 56.87 crores (Previous year ₹ 56.18 crores) (before set off of inter-segment revenue), EBITDA of ₹ 6.47 crores (Previous year ₹ 5.21 crores) and Profit Before Tax of ₹ 5.74 crores (Previous year ₹ 4.92 crores) of Hygiene Products Division.

Human Resources

The Company follows fair 'human resource' practices providing equal opportunity to all its employees. The policy includes on the job training, progressive and performance driven remuneration, talent retention and some work-life balance programs. The Company believes in offering full opportunity for growth to employees demonstrating positive attitude and initiative to accept challenge and responsibility.

The Company plans to adopt a policy of 'Work from Home' in respect of certain sections of Company with a view to keep pace with emerging trend to achieve better work - life balance and cost reduction, more so in view of current pandemic throughout the world.

The Company employs about 713 employees. The Industrial Relations with the employees continue to remain cordial during the year. A wage agreement signed earlier with worker's Union is in force till 31.03.2020. The Union has submitted its charter of demands for negotiations for the subsequent period.

Opportunities of the Company

As an established pioneers in Specialty Paper products and a preferred supplier of quality products, the Company derives its growth prospects in respect of a wide range of products from:

- Rapid urbanization growing at an average of 2.5% over and above growth in population;

- Expanding middle class likely to be 70% of the total population by 2025 which would mean almost 1 billion people;
- Rising education level and consequent thereupon, continuous increase in spend both in rural and urban areas, on an average constituting 5% of overall household expenditure.
- Demographic advantage resulting in rising of working age population. India's median age of 27 years makes large productive workforce and a young Country.
- Increase in disposable income and changing consumer preferences, resulting in shift towards more aspirational life style.
- Growing popularity of ready-to-eat products, Packaged liquid and other perishable products requiring qualitative packaging.
- Growing intolerance and statutory compulsions against the use of plastics offering good opportunities for paper based packaging which fits into current range of products manufactured by the Company including functionally coated packaging paper. This also enables the Company's certain products to enter into flexible packaging applications.
- The Company has installed an offline coater to focus on functionally coated papers for food packaging industry with special emphasis on quick delivery system of food.
- Growing hygiene awareness both in general and at personal level necessitates use of Crepe Tissue products.

Competitive strengths of the Company

- Research & Development with focus on products development as per customers' requirements.
- Extensive distribution network.
- Strong brand recall.
- Relevant expertise, experienced work force and agile management team.
- Cost efficient sourcing and locational advantage and effective cost management.

- Ability to change product mix.

Business Strategy of the Company

- Continuous strengthening of in-house R & D set up and products innovation.
- Build stronger ties with the users & prospective customers.
- Standardizing products specification.
- Identify market opportunities for growth.
- Continuous emphasis on cost reduction and develop ability to design product mix, optimizing input costs, maintain quality and improve margins.
- Relocation of manufacturing facilities with technology upgradation and expanded capacity.

Concerns and threats

The Company's heavy dependence on bought out fibre for its raw material requirement arises from absence of its own source of fibre. Such raw materials are majorly imported and therefore in addition to cyclical nature of their business, adverse movement in prices and foreign exchange at times may substantially impact Company's working, both in terms of quantity and margins.

Inadequacy of Co-generation facilities requires the Company to necessarily depend on purchased energy, which is much costlier than the generated power. Open Access power purchase arrangements though do help to reduce energy cost, State Electricity Boards' policy to discourage Open Access power by imposing levies/higher tariff puts impediments in this direction. In the earlier year, the Company has been purchasing power from Sai Wardha Power Generation Ltd (SWPGL) under Group Captive scheme where the Company also contributed its required share of capital investment in equity. Although, the power supply under such scheme exempt from the levy of Cross Subsidy

Surcharge (CSS) and Additional Surcharge (AS) these levies aggregating to ₹ 15.8 crores have been imposed by Maharashtra State Electricity Distribution Company Limited (MSEDCL) for the year 2016-17 and 2018-19 (upto October, 2018). This entire matter is sub-judice before Maharashtra Electricity Regulatory Commission/ Appellate Tribunal and is under stay order. In terms of the agreement, the Company had a right of reimbursement of such levies from SWPGL. However, SWPGL has become subject matter of Insolvency and Bankruptcy Code. In terms of the order passed by National Company Law Tribunal, the Company's agreement with SWPGL stood terminated and our right to recover from SWPGL nullified. Consequently, in respect of an amount of ₹ 8.63 crores for 2018-19 decided by MERC in favour of MSEDCL and pending before Appellate Tribunal has been provided for full in the accounts of the Company for the current year as its right of recovery from SWPGL is no more in force.

The paper industry also faces shortage of talented and experienced workforce due to shortage of good Institutes offering technical courses for the Pulp and Paper industry and general aversion to seeking career in the industry and working on the shop floor. This makes hiring of younger people difficult and those who join leave after few years of working experience for better opportunities.

The Company has been continuously meeting stringent norms for pollution laid down by the Government but its intention to move towards Zero Liquid Discharge (ZLD) in the long run may make Company's working difficult and unsustainable, whilst the Company is not averse to follow more stringent norms than presently are.

The current manufacturing facility at Pune has witnessed rapid urbanization around it and faces all associated challenges including higher cost of operations. These facilities are located on the land and buildings owned by AMJ Land Holdings Ltd (Formerly known as Pudumjee Pulp & Paper Mills Ltd) and 3P Land Holdings Ltd (Formerly known as Pudumjee Industries Ltd) under Leave and License agreement, which as stated earlier, is proposed to be renewed and extended. Proposed renewal and extension of the agreement at reasonable cost is of utmost importance until the Company is able to shift its facility to the aforesaid site at Mahad.

The deteriorating quality and depleting level of water in the adjacent Pawna river from which the Company draws its water requirement is another concern including for enhanced treatment cost. The Company draws its water requirement under an agreement in terms of which the Company had contributed proportionate cost of Pawana Dam to the State Irrigation Department.

COVID-19

The sudden announcement of lockdown by the Government of India to tackle the Covid-19 Pandemic has caused serious disruptions in the entire sphere of economy and business in the nation. The operations of the manufacturing facility and all activities were suspended to observe Janta Curfew on 22nd March, 2020 and thereafter in compliance of the lockdown announced by the Government to ensure the safety of workmen of the Company in the wake of Novel Corona Virus pandemic.

The Company's products are used in maintaining supplies of essential goods by the Company's customers for food and pharma packaging, hospital supplies, hygiene sectors, food and confectionary etc. The stoppage of the Company's activity also caused difficulties for such customer to maintain their chain of supply of essential goods.

The Company, in the second half of April, 2020, had obtained permission from Government of Maharashtra for dispatch and transportation of manufactured paper products of the Company lying in its inventory for use as input in supply of essential goods. Similarly, the Hygiene Division engaged in supply of essential products also resumed its production.

Subsequently, on 8th May 2020 the Company, after obtaining permission from Government of Maharashtra, resumed manufacturing of Specialty Paper products required as input for aforesaid essential goods. Accordingly, the Company commenced its production of paper on 12th May, 2020 after installing necessary infrastructures and training of personnel to operate in the 'new normal scenario' by observing required hygiene practices, social distancing norms, wearing mask or face shield, disinfecting incoming and outgoing vehicles, frequently disinfecting the mill and office premises etc. The production after gradually inching up is currently operating at about 50% of capacity subject to availability of demand as the demand is severely impacted throughout the country. In view of the continuing lockdown in different forms, the Company will appropriately adjust its level of production in response to demands of its products.

Whilst it is difficult to estimate precise future impact of Covid-19 on Company's operations in view of the prevailing uncertainty about the duration of Covid-19 in the country, it is believed that the Company's operations would be in line

with overall developments and revival of economy and business sentiments prevailing in the 'unlockdown' phases. The Company also recognizes the opportunities arising to its business of paper and hygiene products, due to likely increased preferences of public (i) to avail of more ecommerce platform for home delivery as also and (ii) about more and better hygiene practices. Though, the Company is currently comfortably placed in terms of capital and financial resources and liquidity position, the profitability during the year may suffer due to the sluggish operations unless a quick and robust rebound in the economy takes place. The Company has initiated necessary measures to reduce costs including in the areas of salaries and wages, but, the room left for such reduction is very limited in view of nature of the fixed costs which the Company has to incur at lower level of operations. The Company's borrowings of about ₹ 19.75 crores are payable upto March 2021 and in view of the current liquidity position the Company does not visualize any difficulty in servicing debt. The internal finance reporting and controls are robust and are periodically evaluated. These reporting and controls are being appropriately modified to allow certain office function to be discharged under "Work from Home" environment and wherever feasible to discourage document handling. The Company shall be making requisite investments in required infrastructure in a phased manner.

The Company has adequate amount of inventory of input and does not visualize any unmanageable difficulty in the supply chain of inputs. However, the Company's products do experience initial hiccups until the 'unlockdown' at a fair level in the country is implemented since many non-industrial outlets and industrial establishments, which consume papers, are yet to reopen. The Company, presently, did not come across any case where existing contract/ agreements were not honoured by the parties to the agreements. The logistics in the supply chains in general and transportation in particular does suffer from certain inadequacies and shortages and higher costs. The Company's assets are well protected and were being regularly monitored even during the complete lockdown to ensure that these assets do not suffer any damage.

Internal Control System and Their Adequacy

The Company has adopted internal control procedures commensurate with its size and operations. The Company's internal control system is designed to ensure management efficiency, measurability and verifiability, reliability of accounting and management information, compliance with all applicable laws and regulations, and the safeguard of the Company's assets so that the main company risks (operational, compliance-related, economic and financial) are properly identified and managed over time. The Board of Directors takes stock of internal control measures taken from time to time.

CRITERIA FOR SELECTION OF CANDIDATES FOR SENIOR MANAGEMENT AND MEMBERS ON THE BOARD OF DIRECTORS

Introduction:

In accordance with the provisions of Section 178 of the Companies Act, 2013, the Board of Directors of the Company at its meeting held on 14.11.2015, constituted the Nomination and Remuneration Committee of the Board of Directors (Committee) and also stipulated terms of reference in line with the Companies Act, 2013.

The Board has delegated the responsibility to the Committee to formulate the criteria for identification, selection of the candidates fit for the various positions in senior management and who are qualified to be appointed as Director on the Board of Directors of the Company.

The Committee has adopted the following criteria for selection of candidates eligible to be appointed in the Senior Management of the Company and also Member on the Board of Directors of the Company.

Criteria for Selection of Directors:

The Committee shall, before making any recommendation to the Board for appointment of any Director, consider the following;

- the candidate should have appropriate experience both in terms of quality and time in any of the areas viz. banking, infrastructure, financial management, legal, sales, marketing, administration, research, corporate governance, technical operations, or such other areas or disciplines which in the opinion of the management and Committee are relevant for the Company's business;
- the candidate should possess the positive attributes such as leadership skills, decision making skills, integrity, effective communication, hard work, commitment and such other attributes which in the opinion of the Committee the candidate possess and are in the interest of the Company;
- the candidate should be free from any disqualifications as provided under Sections 164 and 167 of the Companies Act, 2013;
- the candidate should meet the conditions of being independent as stipulated under the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015, in case of appointment of an independent director;
- the candidate should possess appropriate skills, experience and knowledge in one or more fields of finance, law, management, sales, marketing, administration, research, corporate governance, technical operations, infrastructure, or such other areas or disciplines which are relevant for the Company's business;

The Committee should also verify that the said person is not debarred from holding the office of Director pursuant to any SEBI order or any other such authority.

Criteria for Selection of Senior Management Personnel:

The term 'Senior Management' shall have the meaning provided under the explanation to Section 178 of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended with effect from 1st April, 2019, as provided herewith –

As per Section 178 of the Companies Act, 2013,

The expression “senior management” means personnel of the company who are members of its core management team excluding Board of Directors comprising all members of management one level below the executive directors, including the functional heads.

As per SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended with effect from 1st April, 2019

- “senior management” shall mean officers/personnel of the listed entity who are members of its core management team excluding board of directors and normally this shall comprise all members of management one level below the chief executive officer/managing director/whole time director/manager (including chief executive officer/manager, in case they are not part of the board) and shall specifically include company secretary and chief financial officer.

The Committee shall, before making any recommendation to the Board, for appointment, consider the attributes of the candidate set forth below:

- The candidate should have appropriate experience both in terms of quality and time in any of the areas viz. banking, infrastructure, financial management, legal, sales, marketing, administration, research, corporate governance, technical operations, or such other areas or disciplines which in the opinion of the management and Committee are relevant for the Company’s business;
- The candidate should possess the positive attributes such as leadership skills, decision making skills, integrity, effective communication, hard work, commitment and such other attributes which in the opinion of the Committee the candidate possess and are in the interest of the Company.

If the Committee finds that the candidate meets the above criteria for appointment as part of Senior Management or as a Director on the Board, as the case may be, the Committee shall make its recommendation to the Board.

Remuneration Policy

The Company’s remuneration policy is based on the success and performance of the individual employee and the Company. Through, its compensation policy, the Company endeavours to attract, retain, develop and motivate a high performance workforce. The Company follows a compensation mix of fixed pay, variable and fixed allowances, benefits and bonuses etc. Individual performance pay is determined by business performance and the performance of the individuals measured through the annual appraisal process.

The Company pays remuneration by way of salary (fixed component), benefits, perquisites and allowances (variable component) to its Managing Directors and the executive directors. The Remuneration Committee decides on the commission if any payable to Executive Chairman out of profits for the financial year and within the ceiling prescribed by the Companies Act based on the performance of the Company as well as that of the incumbent.

The Company pays sitting fees of ₹ 10,000 per meeting or as may be fixed from time to time to its Directors for attending the meetings of the Board and ₹ 10,000/₹ 5000 for meetings of the Committee of the Board. The Company also reimburses the out of pocket expenses incurred by the Directors for attending the meetings.

INDEPENDENT AUDITOR’S REPORT**To****The Members of****Pudumjee Paper Products Limited****Report on the Audit of the Financial Statements****Opinion**

We have audited the accompanying financial statements of Pudumjee Paper Products Limited (“the Company”), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing(SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Provisions and contingencies</p> <p>The Company has received a demand of ₹1580.34 lakhs from MSEDCL on power purchased from outside vendor under group captive power mechanism. During the year the Company has made payment in protest of 431.70 lakhs, required as per APTEL order and made a provision of 863.39 lakhs in books. Balance amount is disclosed as contingent liability. The matter is pending in with APTEL/ MERC where the Company's appeal/petition are pending.</p> <p>Refer Note 10(e) and 28 of the financial statements.</p>	<p>Our procedure included, but were not limited to the following:</p> <p>We assessed the management's judgement in determining the probability of the outcome of the pending litigation, and an ultimate probability of economic outflow. We evaluated adequacy of the provision made in books.</p> <p>We have obtained information on the pending litigation and its status. We have obtained explanations from management to understand the merits in the demand and appeal filled.</p> <p>We have also considered the adequacy of the disclosures in respect of the pending demand and the sub-judice matter.</p>
<p>Assessment of impairment of Goodwill</p> <p>Goodwill of ₹ 7793.05 has arisen as per the Scheme of arrangement and reconstruction approved by high court dated January 8, 2016.</p> <p>The management monitors goodwill at the company level by considering entire business. Consequently, goodwill is not allocable to any segment or cash-generating unit.</p> <p>Goodwill is tested for impairment at least annually or when events occur or changes in circumstances indicate that the recoverable amount is less than its carrying value. The recoverable amount is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions.</p> <p>Management has considered impact of the possible effects that may result from the pandemic relating to COVID-19. No impairment visualized by the Management once economic activity achieves normalcy.</p> <p>Refer note 31 of the financial statements.</p>	<p>Our audit procedures related to forecasts of future revenue and operating margin and selection of the discount rate for these assets included the following, among others:</p> <p>We tested the design, implementation and operating effectiveness of controls over impairment assessment process, including those over the forecasts of future revenue and operating margin, and the selection of the discount rate.</p> <p>We evaluated the reasonableness of management's revenue and operating margin forecasts by comparing the forecasts to:</p> <ul style="list-style-type: none"> - Historical revenues and operating margins. - Internal communications to management, Audit Committee and the Board of Directors. <p>Assessed the reasonableness of assumptions used, including assumptions relating to revenue growth rate, gross margins, discount rates, long-term growth rate etc. based on historical results, current developments and future plans of the business estimated by management.</p> <p>Assessed cash flow forecasts to ensure consistency with current operations of the Company and performed sensitivity analysis on key assumptions used in management's calculated recoverable value.</p> <p>Considered the adequacy of disclosures in respect of goodwill impairment in the notes to the financial statements.</p>

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, the profit and total comprehensive income, changes in equity and its cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 read with Schedule V of the Act.
 - (d) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- (e) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (f) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act.
- (g) With respect to the adequacy of the internal financial controls reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.
- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations as at March 31, 2020 which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivative contracts as at March 31, 2020;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2020;

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in the Independent Auditors' Report of even date to the members of Pudumjee Paper Products Limited on the financial statements as of and for the year ended March 31, 2020

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of property, plant and equipment.
- (b) The property, plant and equipment are physically verified by the Management according to a phased program designed to cover all the items over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program a portion of the property, plant and equipment were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) The title deeds, comprising all the immovable properties of land and acquired buildings which are freehold, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land and building that have been taken on lease and disclosed as Right of Use Assets in the standalone financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.

- ii. The physical verification of inventory excluding stocks with third parties, have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. No material discrepancies were noticed on such physical verification.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.
- v. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Sections 73, 74, 75 and 76 or any other relevant provisions of the Act to the extent notified. According to the information and explanations given to us, no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal on the Company in respect of the aforesaid deposits.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues, including provident fund, professional tax, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax, and other material statutory dues, as applicable, with the appropriate authorities.
(b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income tax, sales-tax, duty of customs, goods and service tax which have not been deposited on account of any dispute.
- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government as at the balance sheet date.
- ix. During the year ended March 31, 2020, the Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- xi. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections

177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- xiv. The Company has not made any preferential allotment or private placement of shares or convertible debentures during the year under audit. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. According to the information and explanations given to us and the records of the Company examined by us, the Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in the Independent Auditors' Report of even date to the members of Pudumjee Paper Products Limited on the financial statements for the year ended March 31, 2020

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Pudumjee Paper Products Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as

at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Pudumjee Paper Products Limited (the "Company") The Company, mainly belongs to Paper Industry and operates in Specialty Paper segment for Wrapping and Food Grade Packaging Paper, household and Sanitary Paper etc. The Company's manufacturing facilities located at Thergaon, Pune produces wide range of Specialty Papers of varying basis weight and is ably supported by a dedicated team and country wide network of distribution channels. Manufacturing tailor made products of varying properties to suit various applications in a short and committed period of delivery is Company's hallmark. Such applications (with more possibilities for inclusion), can be broadly categorized as 1) Opaque Laminating Base used for Laminating, printing, packaging, Chocolate and Toffee wrapping 2) Glassine for packing of food products soaps etc. 3) Base paper for melamine tableware, Paper for decorative laminates for furniture 4) Bible Printing Paper used in Printing of Bible, Dictionary, Books, pharma leaflets (insert & outserts) 5) Vegetable parchment paper for packing of butter, cheese etc. 6) Kraft paper used as release liner for labels, Interleaving for steel and Glass industry etc. 7) Tissue paper used as napkins, kitchen towel, Toilet rolls products and several others.

The Hygiene Products Division of the Company markets its Away-from-Home converted tissue products such as Bathroom roll, Kitchen towel, Napkins, dispensers etc. under well received brand name 'Greenlime' and mainly focuses on institutional buyers, comprising Luxury Hotels, Airports, Corporate Offices etc.

The Company is public limited company and is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

The financial Statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Company on June 12, 2020.

Note 2 : Summary of significant accounting policies

a. Basis of preparation

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either, in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

b. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within the operating cycle or twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within the operating cycle or twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. Provisions where timing of cash out-flow is not certain is classified as non-current.

Operating cycle of the Company is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The company has ascertained operating cycle of 12 months for the purpose of current and non-current classification of assets and liabilities.

c. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligator in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Sale of goods:

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Amounts disclosed are net of returns and allowances, trade discounts, volume rebates goods & service tax and amounts collected on behalf of third parties. Insurance/freight charged on sales and recovered is included in revenue as a part of Other operating revenue.

Goods are often sold with retrospective volume discounts based on aggregate sale over the contract period. Revenue from these sales is based on the price specified in the sales contracts, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts.

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2020 (Contd.)

A refund liability (included in other financial liability) is recognised for expected volume discounts payable to customers in relation to sales made until the end of reporting period.

No element of financing is deemed present as the sales are made with a credit term consistent with market practice. Further the Company charges interest to customers on delayed payment, if any.

Export incentive:

Export incentive related to export of goods, is recognised as income when the right to receive such incentive is established in principle, i.e. at the time of export sale is complete.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in Other income in the statement of profit and loss.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Company's right to receive is established.

d. Property, plant and equipment

Property, plant and equipment, Capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life as per Schedule II
Factory Building	30	30
Factory Building (on lease hold land)*	8.5	30
plant & Machinery	25	25
plant & Machinery (used in generation, transmission & distribution of power)	40	40
Data Processing Units	3	3
Computer softwares	6	6
Laboratory Equipment	10	10
Vehicles	8	8
Furniture & fixtures (office Equipment)	5	5
Furniture & fixtures (including Electrical equipments)	10	10

* Lower of useful life of the asset or lease term.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

The Company, based on technical assessment made by technical expert and management estimate, depreciates all the assets over estimated useful life which is also the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

e. Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

f. Intangible Assets

Goodwill

The goodwill represent arising on demerger prior to Ind AS transition. The Company has availed exemption available in Ind AS 101 from retrospective application of Ind AS 103 Business Combination.

Goodwill recognised in a business combination is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. It is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit (CGUs) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purposes.

The Company's Management monitors goodwill at the Company level, hence Goodwill is not allocated to any single cash-generating units or segment.

The recoverable amount is determined based on higher of value-in-use and fair value less cost to sell. Key assumptions in the cash flow projections are prepared based on current economic conditions and comprises estimated long term growth rates, weighted average cost of capital and estimated operating margins. (Refer to Note no. 31)

Patents, copyrights and other rights

Separately acquired patents and copyrights as well as internally developed ones are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Separately acquired software are recorded as intangible assets and amortised from the point at which the asset is available for use.

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2020 (Contd.)

Research and development

Research expenditure and development expenditure that do not meet the recognition criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Patents, copyrights and other rights : 10 years

Computer software : 6 years

g. Inventory

Inventory comprises of stock of raw material, finish goods, traded goods, work-in-progress, consumables, packing material, and stores. Inventory is valued at cost or net realizable value whichever is lower.

Cost of raw materials, consumables, packing material, stores and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on first-in first-out basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

h. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds.

i. Leases

Company as a lessee

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

The Company's lease asset classes primarily consist of leases for land, building, and office premises. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the balance sheet and lease payments have been classified as financing cash flows. Further information is disclosed in Note 29 (b).

j. Taxes

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss of the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rate enacted or substantially enacted at the reporting date.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for deductible temporary differences, the carry forward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which those can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable Company and the same taxation authority.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

k. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

l. Provisions and Contingent liability

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation but, there is uncertainty about the timing or amount of the future expenditure required in settlement. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

m. Employee benefits

Short-term obligations

Short-term employee benefit are expensed as the related service is provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within one year after the end of the period in which the employees render the related service are the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Re-measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non current based on actuarial valuation report.

Post-employment obligations

The Company operates the following post-employment schemes:

- i. defined benefit plans such as gratuity, pension, and

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

- ii. defined contribution plans such as provident fund, superannuation fund,

Defined benefit plans

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

n. Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value.

The classification depends on the Company's business model for managing the financial asset and the contractual terms of the cash flows. The Company classifies its financial assets in the following measurement categories:

- i. those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- ii. those measured at amortised cost,

Subsequent measurement

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. All other financial assets are measured at amortised cost, using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss financial assets that are not fair valued.

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2020 (Contd.)

The Company follows 'simplified approach' for recognition of impairment loss for trade receivables that have no significant financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, is recognized under the head 'other expenses' in the statement of profit and loss.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

De-recognition of financial assets

The Company derecognizes a financial asset when -

- i. the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under IND AS 109.
- ii. it retains contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the entity has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to extent of continuing involvement in the financial asset.

Financial liabilities

Initial recognition

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification, as described below:

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within one year after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

Borrowings are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least one year after the reporting period.

Derivative financial instruments

Derivative financial instruments such as forward contracts, to hedge its foreign currency risks are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise.

o. Earnings per share

The basic earnings per share is computed by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The Company does not have any potential equity share or warrant outstanding for the periods reported, hence diluted earnings per share is same as basic earnings per share of the Company.

p. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of Directors of the Company, assesses the financial performance and position of the Company, and makes strategic decisions. The Board of Directors is therefore considered to be the chief operating decision maker.

q. Critical estimated and judgements

i Goodwill

Goodwill is tested for impairment at least annually or when events occur or changes in circumstances indicate that the recoverable amount is less than its carrying value. The recoverable amount is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions. Also refer note 31

ii Defined benefit obligation

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, employee turnover rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Also refer note 11.

iii Impairment of Trade receivables & Other financial assets

The impairment allowance for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the COVID -19 pandemic. Assumptions are reviewed at each reporting date. Refer note 24(a).

iv Income Taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

v Estimation of provision for Electricity surcharge

Maharashtra State Electricity Distribution Company Limited (MSEDCL) had levied in the bills raised on the Company, Cross Subsidy Surcharge (CSS) and Additional Surcharge (ASC) on power purchased from outside vendor under group captive mechanism. The matter is sub judice being disputed before appropriate authorities. Based on management's estimate, no provision has been made in the books against the said demand. The matter is disclosed and further explained in Note n0. 10(e) and 28.

vi Non-current assets held for sale

The Company classify a non-current asset (or disposal group) as held for sale if, (i) the Company intends to sell the asset, (ii) the asset is available for immediate sale in its present condition, (iii) the Management has initiated a plan to sell and (iv) the sale is highly probable.

Non-current assets held for sale are measured at the lower of carrying amount and fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the assets held for sale has been estimated using valuation techniques including using the comparative price approach, which includes unobservable inputs.

An asset that ceases to be classified as held for sale shall be measured at the lower of carrying amount before the non-current asset was classified as held for sale adjusted for any depreciation/ amortization and its recoverable amount at the date when the asset no longer meets the "Held for sale" criteria. Recoverable amounts of assets reclassified from held for sale have been estimated using management's assumptions which consist of significant unobservable inputs.

vii Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of receivables, investments and intangible assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

NOTE 3 (b) : Capital Work in Progress

Capital Work in progress mainly includes building & machinery at Mahad, new projects at Pune plant and Guest house at Mumbai.

NOTE 3 (c) : Property, plant and equipment hypothecated as security

Refer to note 10(a) for information on property, plant and equipment hypothecated as security by the company.

NOTE 3 (d) : Contractual obligations

Refer to note 29(a) for disclosure of contractual commitments for the acquisition of Property, plant and equipments.

NOTE 3 (e) : Impairment loss

In current year the Company has recognised impairment loss of ₹ 78.72 lakhs in the Statement of profit and loss on items from Plant and machinery group of assets; for assets retired from active use and on reclassification from Non-current assets held for sale.

Note 3(f): CWIP Amortisation

The future economic benefits embodied in an asset are consumed by an entity principally through its use. Depreciation of an asset begins when it is available for use. However, other factors, such as technical or commercial obsolescence and wear and tear while an asset remains idle, often result in the diminution of the economic benefits that might have been obtained from the asset. To account for such diminution the Management has recognised amortisation of ₹ 228.19 lakhs in FY 2019-20, on the idle assets of CWIP - Plant and machinery at Mahad location.

* This investment represent investment in class A equity shares of Sai Wardha Power Generation Limited (SWPGL), that gives the Company entitlement to purchase power from SWPGL. As per the share purchase agreement, the Company cannot sell these shares to any person without prior written approval from KSK Energy Ventures Limited (KSK,holding company of SWPGL). Further at the time of completion/termination of the power supply agreement, SWPGL either will arrange the buy-back of these shares or will arrange to transfer the shares to KSK's nominee for a total consideration that is equal to its cost of acquisition to the Company (i.e. ₹ 10/- per share). Hence, historically the company carried this investment at fair value, which was equal to cost for the company. However insolvency order has been passed for SWPGL and the company may not recover the amount of investment, Hence appropriate provision has been made.

NOTE 8: ASSETS CLASSIFIED AS HELD FOR SALE

Total	<u>-</u>	<u>62.85</u>

In previous year 2018-19, the management of the Company decided to sell certain items of machines (the "Machines") that were used for paper manufacturing. The Machines are presented within total assets of the Paper manufacturing segment. The Machines classified as held for sale were measured at its carrying amount, being lower than fair value less costs to sell at the time of the reclassification. The fair value of the Machines was determined using the comparative price approach. This is a level 2 measurement as per the fair value hierarchy set out in fair value measurement disclosures (note 23).

In current year 2019-20, based on evaluation of proposals received and progress of negotiations with potential buyers, the Company concluded that the Machines does not meet the criteria for "Held for Sale" classification. In absence of active market and current market scenario it is not probable that sale would be consummated. On reclassification the Machines is measured at the lower of carrying amount before the non-current asset was classified as held for sale adjusted for any depreciation/ amortization and its recoverable amount at the date when the asset no longer meets the "Held for sale" criteria.

Accordingly the Company has recognised an impairment loss of ₹ 59.71 lakhs to bring down the carrying amount of the machines to its recoverable amount. Refer note 3 (e).

Note : Information about individual provisions

(i) Provision against litigation:

Provision for disputed statutory liabilities comprises electricity duties matters under litigation with Maharashtra Electricity department. Explained in detail in note 28(e)

The amount of provisions made by the Company is based on the estimates made by the Management considering the facts and circumstances of each case. To the extent the Company is confident that it has a strong case, that portion is disclosed under contingent liabilities.

The timing and the amount of cash flows that will arise from these matters will be determined by the Appellate Authorities only on settlement of these cases.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED

(All amounts in INR Lakhs unless otherwise stated)

(ii) Other provision

Other provision is for probable liability of electricity duty on power generated by the company. As on balance sheet date no demand has been raised on the company, but on prudent basis a provision has been recognised in compliance with IndAS 37. The management estimates that no cash outflow is expected within 12 months from the balance sheet date, hence entire provision is classified as non-current.

(iii) Movements in provisions

Movements in provisions during the financial year, are set out below

Defined pension benefits	17.40	17.40
Gratuity	502.99	484.64
Total	598.50	588.29

(i) Leave obligations -

The leave obligation covers the Company's liability for accumulated leaves that can be encashed or availed. The company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly amounts have been classified as current and non-current based on actuarial valuation report.

(ii) Defined benefit plans:

- a **Gratuity** - The Company provides for gratuity for employees as per the terms of employment. Employees who are in continuous service at least for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is calculated at the last drawn monthly basic salary multiplied by 15 days salary for each completed years of service of the employee. The scheme is funded with Life Insurance Corporation of India (LIC). The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimate of expected gratuity payments.

In addition, employees who have completed 20 years of service are eligible to additional gratuity computed at last drawn monthly basic salary multiplied by 7 days salary for each completed years of service of the employee. The additional gratuity benefit is unfunded.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

(All amounts in INR Lakhs unless otherwise stated)

Pension - The Company operates defined benefit pension plan for the Managing director (retired in FY 2019-20). The amount of pension per month is a fixed amount and is paid to the retired director.

After his death, the family pension will be payable to his spouse, and this family pension per month will also be the same fixed amount, and is payable as long as the spouse survives. The Company has not funded the liability.

**NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED
MARCH 31, 2020 (Contd.)**

(All amounts in INR Lakhs unless otherwise stated)

The net liability disclosed above relates to both funded and unfunded plans. The Company has no legal obligation to settle the deficit in the funded plans with an immediate contribution or additional contribution. The Company intends to contribute in line with the recommendations of the fund administrator and the actuary.

ab As at March 31, 2019 and March 31, 2020, plan assets were primarily invested in insurer managed funds.

ac Through its defined benefit plans, the Company is exposed to number of risks, the most significant of which are detailed below:

Asset Volatility: The Plan liabilities are calculated using a discount rate set with reference to government bond yields. If plan assets underperform, this yield will create a deficit. The plan asset investments are in funds managed by insurer. These are subject to interest rate risk.

Changes in bond yield: A decrease in government bond yields will increase plan liabilities, although this may be partially offset by an increase in the returns from plan asset.

b **Defined benefit liability and employer contributions:**

ba The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within the framework, the Company's ALM objective is to match assets to the gratuity obligations by investing in funds with LIC in the form of a qualifying insurance policy.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the process used to manage its risks from previous periods.

bb The Company expects to contribute ₹ 482 lakhs to the defined benefit plan during the next annual reporting period.

bc The weighted average duration of the defined benefit obligation for gratuity and pension is 11.62 and 13.19 years respectively (2019: 10.90 and 13.84 years). The expected maturity analysis of undiscounted pension and gratuity is as follows:

Particulars	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
31-Mar-20					
Defined benefit obligation gratuity	262.82	164.94	436.43	5,396.90	6,261.09

* Discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

** The overall expected rate of return on assets is based on the expectation of the average long term rate of return expected on investments of the Fund during the estimated term of the obligations.

*** The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors, such as demand and supply in the employment market.

bi Sensitivity analysis - the increase / (decrease) in present value of defined benefit obligation to changes in principal assumptions:

Particulars	31-Mar-20		31-Mar-19	
	Amount	%	Amount	%
- 1% increase in discount rate	(114.01)	-6.68%	(67.67)	-4.55%
- 1% decrease in discount rate	130.52	7.65%	127.42	8.56%
- 1% increase in salary escalation rate	105.71	6.19%	106.73	7.17%
- 1% decrease in salary escalation rate	(94.12)	-5.51%	(50.79)	-3.41%
- 1% increase in rate of employee turnover	(6.34)	-0.37%	23.50	1.58%
- 1% decrease in rate of employee turnover	7.57	0.44%	23.94	1.61%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

iii Defined contribution plans:

The Company also has certain defined contribution plans. Contributions are made to recognised funds for employees at the prescribed rate of basic salary as per regulations. The contributions are made to registered funds administered/approved by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. In respect of these plans, contributions paid and recognised in the Statement of Profit and Loss are as follows:

	31-Mar-20	31-Mar-19
Contribution to Employees' Provident Fund	216.66	204.24
Contribution to Employees' Superannuation Fund	75.00	61.58

(i) Fair value hierarchy:

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

The following table provides the fair value measurement hierarchy of the Company's financials assets and liabilities that are measured at fair value or where the fair value disclosure is required.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all mutual funds are arrived at by using closing Net Asset Value published by the respective mutual fund houses.

Level 2: Fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument as observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable data, the instrument is included in level 3.

(ii) Valuation technique used to determine fair value

The following methods and assumptions were used to estimate the fair value of the level 3 financial instruments included in the above tables:

The investment in unquoted equity instrument represents investment in class A equity shares of Sai Wardha Power Generation Limited (SWPGL). The investment have some restrictions as per the Share purchase agreement including restriction on sale of these investments to any third party. The fair value arrived at is after taking into account the relevant terms and condition of the Share purchase agreement. Also refer note 4(a) for details.

(iii) As per Ind AS 107 “Financial Instrument:Disclosure”, fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

1. Trade receivables
2. Cash and cash equivalent
3. Other bank balances

NOTE 24 : FINANCIAL RISK MANAGEMENT

The Company’s business activities are exposed to a variety of financial risks, namely liquidity risk, market risks and credit risk. The Company’s senior management has the overall responsibility for establishing and governing the Company’s risk management framework. The Company’s risk management policies are established to identify and analyze the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee of the Company.

a. MANAGEMENT OF CREDIT RISK

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and other financial instruments.

i) Trade receivables:-

Trade receivables are generally unsecured, except for export sales which are generally covered by letters of credit and some parties in Hygiene division where security is obtained in the nature of bank guarantee. Customer credit risk has always been managed by the company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company evaluates the customer credentials carefully from trade sources before appointment of any distributor and only financially sound parties are appointed as distributors. The Company secures adequate deposits from its distributor and hence risk of bad debt is limited. The credit outstanding is sought to be limited to the sum of advances/ deposits and credit limit determined by the company. The company have stop supply mechanism in place in case outstanding goes beyond agreed limits. To measure the expected credit loss, trade receivables have been grouped based on the days past due. The expected loss rates are based on the payment profiles of sales over a period of 36 months before the reporting date and the corresponding credit loss experienced within this period. The historical loss rates are adjusted to reflect current and forward looking information on macro economic factors such as expected industry growth, GDP, unemployment rate etc. affecting the ability of the customer to settle the receivables.

Expected credit loss for trade receivables under simplified approach:

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

Particulars	31-Mar-20	31-Mar-19
Revenue from top customer	12.43%	13.41%
Revenue from top five customers	31.87%	36.98%

The company's credit period generally ranges from 15-60 days

During the period, the Company made no write-offs of trade receivables. It does not expect to receive future cash flows or recoveries from receivables previously written off.

ii) Other financial assets:-

Credit risk on cash and cash equivalents is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, carried at fair value. Other financial assets that are potentially subject to credit risk consists of lease deposits and inter corporate loans. The Company charges interest on such loans at arms length rate considering counterparty's credit rating. The Company assesses the recoverability from these financial assets on regular basis. Factors such as business and financial performance of counterparty, their ability to repay, regulatory changes and overall economic conditions are considered to assess future recoverability. An impairment analysis is performed at each reporting date on an individual basis. The Company does not hold collateral as security. During the year, the company made additional provision of ₹ 7.62 lakhs for doubtful deposits and other financial assets. Based on assessment performed management has concluded that impact of expected credit loss is not material and current provision made against Loans and Other financial assets is adequate to cover the provision on account of expected credit loss. The Company's maximum exposure to credit risk is the carrying value of each class of financial assets.

iii) Reconciliation of loss allowance provision:

Particulars	Trade receivables	Other financial assets	Other Current assets	TOTAL
Loss allowance on 1 April 2019	688.07	49.14	84.69	821.90

b. MANAGEMENT OF LIQUIDITY RISK

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses or risking damage to company's reputation. In doing this, management considers both normal and stressed conditions.

Management monitors the rolling forecast of the company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The company has access to funds from debt markets through loan from banks. The company invests its surplus funds in bank deposits and debt based mutual funds.

The following table shows the maturity analysis of the Company's financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

c. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of fluctuation in market prices. These comprise three types of risk i.e. currency rate, interest rate and other price related risks. Financial instruments affected by market risk include loans and borrowings, deposits, financial assets and liabilities in foreign currency, investments in quoted instruments and derivative financial instruments. Regular interaction with bankers, intermediaries and the market participants help us to mitigate such risk.

i) Foreign currency risk

The primary market risk to the Company is foreign exchange risk. After taking cognisance of the natural hedge, the company selectively takes hedges to mitigate its risk resulting from adverse fluctuations in foreign currency exchange rate(s). When a derivative is entered into for the purpose of hedge, the Company negotiates the terms of those derivatives to match the terms of the underlying exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency. The company uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. During the year ended March 31, 2020, the company did not have any hedging instruments with terms which were not aligned with those of the hedged items.

aa The company's exposure to foreign currency risk as of March 31, 2020 expressed in INR lakhs, is as follows:

Exposure in USD currency -	31-Mar-20	31-Mar-19
<i>Financial assets</i>		
Cash and cash equivalents	0.04	34.38
Trade receivables	13.60	57.88
<i>Derivative assets</i>

ab Sensitivity

For the year ended March 31, 2020 and March 31, 2019, every percentage point appreciation/depreciation in the exchange rate would have affected the Company's operating margins respectively:

- INR/USD by approximately 0.85% and 1.36%

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into reporting currency, due to every percentage point appreciation/depreciation in the exchange rates.

ac The following significant exchange rates have been applied during the year.

INR	Year-end spot rate	
	31-Mar-20	31-Mar-19
USD	75.80	69.25
EUR	82.26	77.57

ii) Interest rate risk exposure

Interest rate risk is the risk that the fair value or future cash flows on a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the company's interest rate position. Various variables are considered by the management in structuring the company's investment to achieve a reasonable ,competitive cost of funding.

The exposure of the company's borrowing to interest rate changes at the end of the reporting period are as follows:

	31-Mar-20	31-Mar-19
<i>Financial liabilities</i>		
Variable rate borrowings	4,021.27	4,664.29
Fixed rate borrowings	3,367.98	3,591.89
Total borrowings	7,389.25	8,256.18
<i>Financial assets</i>		
Fixed rate loans	1,989.64	225.00
Total loan given	1,989.64	225.00

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	Impact on profit after tax	
	31-Mar-20	31-Mar-19
Interest rates - increase by 50 basis points (50 bps)	(20.11)	(23.32)
Interest rates - decrease by 50 basis points (50 bps)	20.11	23.32

iii) Price Risk and Sensitivity:

The Company is mainly exposed to the price risk due to its investment in debt mutual funds. The price risk arises due to uncertainties about the future market values of these investments. As on 31-Mar-20, the investments in debt mutual funds amounts to ₹ 5064.30 lacs (31-Mar-19: ₹ 2219.03 lacs). These are exposed to price risk.

The Company has laid policies and guidelines which it adheres to in order to minimise price risk arising from investments in debt mutual funds.

A 1% increase in prices would have led to approximately an additional ₹ 50.64 lacs gain in the Statement of Profit and Loss (2018-19: ₹ 22.19 lacs gain). A 1% decrease in prices would have led to an equal but opposite effect.

NOTE 25 : CAPITAL MANAGEMENT

(a) Risk management

The Company's capital comprises equity share capital, share premium, retained earnings and other equity attributable to equity holders.

The Company's objectives when managing capital are to :

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. Net debt comprises of long term and short term borrowings less cash and bank balances. Equity includes equity share capital and reserves that are managed as capital.

Particulars	31-Mar-20	31-Mar-19
Borrowings (Current +Non-current)	7,532.71	8,307.05

The Company declares and pays dividends in Indian rupees. The Finance Act 2020 has repealed the Dividend Distribution Tax (DDT). Companies are now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

During the year ended March 31, 2020 on account of the final dividend for fiscal 2018-19, and interim dividend for fiscal 2019-20 the Company has incurred a net cash outflow of ₹ 400.64 lakhs inclusive of dividend distribution tax.

NOTE 26 : SEGMENT INFORMATION

The Board of Directors examines the Company's performance based on the products and geographic perspective and has identified below mentioned reportable segments of its business as follows:

Paper : The Paper segment relates to manufacturing (including processing) and marketing of various types of speciality papers, consisting Opaque Laminating Base, Glassine, Base paper, Bible Paper, etc.

Hygiene products: The Hygiene products segment relates to processing/trading and marketing of tissue and other hygiene papers as well as marketing and distribution of other hygiene products.

Segment Revenue, Result, Assets and Liabilities include the respective amounts identifiable to each of the segments and amount allocated on a reasonable basis. Unallocated expenditure/income consist of common expenditure incurred for all the segments and expenses incurred or interest/investment income earned at corporate level. The assets and liabilities that cannot be allocated between the segments are shown as unallocated assets and unallocated liabilities respectively.

The accounting policies of the reportable segments are the same as the Company's accounting policies described in Note 2. The operating segments reported are the segments of the Company for which separate financial information is available. Profit before tax (PBT) are evaluated regularly by the CODM in deciding how

NOTE 28 : CONTINGENT LIABILITIES

Particulars	31-Mar-20	31-Mar-19
(a) Excise/Service tax/Customs related demands /Notifications: Matters decided in favour of the Company by appellate authorities, where the Department is in further appeal.	-	21.37
(b) Octroi : Claims against the Company not acknowledged as debts.	197.31	197.31
(c) Interest on electrical duty on generated power: Claims against the Company not acknowledged as debts.	327.23	327.23
(d) Demand raised by Maharashtra State Electricity Distribution company Ltd Claims against the Company not acknowledged as debts.	716.98	-
	<u>1,241.52</u>	<u>545.91</u>
(e) The Company had been purchasing power (i.e. electricity) from Sai Wardha Power Generation Limited (SWGPL) in earlier years under the Group Captive mechanism. This purchase of power under Group Captive mechanism was exempt from the levy of Cross Subsidy Surcharge (CSS) and Additional Surcharge (ASC) subject to certain conditions.		

In respect of the power supply availed by the Company from SWGPL, the Maharashtra State Electricity Distribution Company Limited (MSEDCL) had levied in the bill raised on the Company CSS and ASC for financial year 2016-17 of ₹ 716.98 lakhs and 2018-19 (till October 2018) of ₹ 863.39 lakhs and the same is sub judice being disputed before appropriate authorities. In terms of the interim stay of demand granted for 2018-19 by Appellate Tribunal for Electricity (APTEL) the Company, as required, deposited ₹ 431.70 lakhs being 50% of CSS and ASC for the Financial Year 2018-19 with MSEDCL.

Although in terms of Power Delivery Agreement (PDA) with SWGPL, the levy of CSS/ASC, if imposed or demanded, was liable to be paid/reimbursed by SWGPL to the Company. However, since the National Company Law Tribunal, Hyderabad, under Insolvency and Bankruptcy Code, 2016, vide its order dated 17th October, 2019 has terminated the said PDA without any obligation and liabilities and treated the claim of such CSS/ASC as unsecured subject to outcome of pending disputes of these levies within 2 years, the Company's right to recover any meaningful amount from SWGPL is practically of no value. Therefore, the Company has made full provision in the Accounts of ₹ 863.39 lakhs for 2018-19 and considered ₹ 716.98 lakhs for 2016-17 pending before Maharashtra Energy Regulatory Commission, as contingent liability.

(b) Leases

Transition - Ind AS 116

Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Company recorded the Lease liability at the present value of the remaining lease payments discounted using the Company's incremental borrowing rate at the date of initial application and the Right-of-use asset at amount of lease liability, adjusted by the amount of any previously recognised prepaid or accrued lease payments relating to that lease. In modified retrospective method comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted. Due to transition, the nature of expenses in respect of operating leases has changed from "lease rent" to "depreciation cost" and "finance cost" for the right-to-use assets and for interest accrued on lease liability respectively, and therefore these expenses for the current period are not comparable to the previous periods disclosed.

The adoption of the new standard resulted in recognition of 'Right-of-use' asset [refer note 3(a)] of ₹ 605.44 lakhs, and 'Lease liabilities' [refer note 10(c)] of equivalent amount. The effect of this adoption is insignificant on the profit before tax, profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 10.5% p.a.

Rental expense recorded for short-term leases was ₹100.98 lakhs for the year ended March 31, 2020.

The difference between the lease obligation recorded as at March 31, 2019 under Ind AS 17 disclosed under Note 29(b) of the 2019 Annual Report and the value of the lease liabilities as at April 1, 2019 is primarily on account of inclusion of extension and termination options reasonably certain to be exercised, in measuring the lease liability in accordance with Ind AS 116 and discounting the lease liabilities to the present value under Ind AS 116.

Future minimum lease payments under leases together with the present value of the net minimum lease payments are as follows:

Particulars	31-Mar-20
Within one year	139.45
After one year and not later than five years	428.55
Later than five years	82.28
Total minimum lease payments	650.28
Less: Amounts representing finance charges	155.41
Present value of minimum lease payments	494.87

NOTE 31: IMPAIRMENT

- (a) Goodwill has arisen as per the Scheme of arrangement and reconstruction (demerger) approved by high court dated January 8, 2016. Goodwill reflects the difference between the fair value of shares issued and all the net assets transferred at carrying value under the scheme. The management monitors goodwill at the company level by considering entire business. Consequently goodwill is not allocable to any segment or cash generating unit.

Goodwill is tested for impairment at least annually in accordance with the Company's procedure for determining the recoverable value of the entire business of the company.

- (b) The recoverable amount is the higher of its fair value less cost to sell and its value in use. The fair value is determined based on market capitalization while the value in use is determined based on specific calculations. These calculations use pre-tax cash flow projections for the company over a period of 5 years. An average of the range of each assumption used is mentioned below. The recoverable amount was computed based on value-in-use being higher than fair value and the carrying amount of the total assets. The key assumptions used for the calculations are as follows:

	(in %)
	March 31, 2020
Long term growth rate	0.50%
Discount rate	11.00%

Management has determined the values assigned to each of the above key assumptions as follows:

Assumption	Approach used to determine values
Operating margins	Based on past performance and management's expectations of the future.
Long term growth rate	The rates are consistent with forecasts included in industry reports.
Discount rate	This is the weighted average cost of capital.

- (c) Based on the above, no impairment was identified as of March 31, 2020 as the recoverable value exceeded the carrying value. Management has considered impact of the possible effects that may result from the pandemic relating to COVID-19. No impairment visualized by the Management once economic activity achieves normalcy.

An analysis of the calculation's sensitivity to a change in the key parameters (revenue growth, operating margin, discount rate and long-term growth rate) based on reasonably probable assumptions, did not identify any probable scenarios where the recoverable amount would fall below its carrying amount.
